

## **STOP MAX! Helicopter View**

In STOP Max! Max flew up in his helicopter to get a better view of what was down below. Can you draw a helicopter view of your house or your favourite place?

What do you think you would see if you were high up in your very own helicopter?

If you have enjoyed doing these activities have a look for some more on the Resilient Rattie's Website: [www.resilientrattiesbooks.com](http://www.resilientrattiesbooks.com)

We would love to see your helicopter view so why not take a photo and post it on to the Resilient Ratties facebook page!
